

K-LOVE has provided an alternative, wholesome, advertisement-free programming.

If K-LOVE were to be displaced, there would be no other provider who would provide similar programming.

The programming by K-LOVE is family-appropriate at all times, hence I would not have to spend time to check its content. In addition, the current FM service provides good sound quality of the programming at low cost to hearers(as opposed to K-LOVE having to switch to AM, or listen through the Net, etc).

Thank you for your kind attention and a decision which take into account my view above.
